

### **Extended Consultation Program**

We believe that every child deserves to grow up in a loving, permanent, stable family. In a perfect world, every child could safely remain in his birth country with his or her biological parents. Unfortunately, we do not live in a perfect world.

We are experienced in finding solutions for vulnerable children in need of safe harbor. Each case is unique and requires an analysis of the facts and the possible options. To protect our clients' and the child's best interest, we have developed a two-step Extended Consultation Program to explore available options for permanency.

#### **Step One: Introductory Consultation (No Charge)**

We will schedule a complimentary introductory call with your family where we will review options generally available for children in similar situations. We will briefly discuss your situation and answer your general questions about our program and services. The introductory call is for informational purposes only and will not constitute the engagement of the firm for legal services.

#### **Step Two: Extended Consultation (\$1,000.00-\$3,250.00) (varies on complexity)**

If you decide to hire us for an Extended Consultation, we will gather information and documents from you, review those documents, research available options for permanency, and inform you of our results. After sharing our results with you, should you wish to retain the firm to execute one of the available options, we will enter into a legal services agreement with you.

**Next Steps:** If you have not already had your complimentary Introductory Consultation, please contact us to schedule that call now. When you are ready to proceed with an Extended Consultation, please return to us the following by email or regular mail:

- (1) signed Extended Consultation Limited Engagement Agreement,
- (2) completed Intake Form,
- (3) scans/copies of relevant documents (with English translations), and
- (4) payment for the Extended Consultation.

Please call us with any questions you have about the program, the agreement, or the form. We look forward to serving you, your family, and most importantly, your child.
